

THE GROVE SPA

& BOUTIQUE

GLO2FACIAL® 3-IN-1 FACIAL Pre-Treatment

Are you getting your skin ready for a big event? If you've never had a Glo2Facial® before and don't know how your skin will respond, we recommend scheduling an appointment about six weeks in advance.

1 Week Before:

- Skip any strong at-home facial treatments the week before your appointment.
- Avoid sun exposure.
- You must wait 7 days after receiving any neurotoxin, filler injections, wax or laser treatments on your face.
- Avoid any skincare products or treatments that contain chemical exfoliants or retinols.

On the day of your treatment:

- Keep skin clean, moisturized & sun protected.
- Use a mild cleanser before bedtime.

Contraindications:

- History of skin cancer
- Steroids
- Lupus and other autoimmune diseases
- Taking antihistamines regularly
- Seborrheic dermatitis
- Allergy to kojic acid
- Pregnancy & breastfeeding
- Cutaneous and/or herpetic eruptions
- Any active skin conditions within the applied area, such as sores, eczema, rash, fragile, swollen, burnt or injured skin, active acne, rosacea, dermatitis, psoriasis, or active Herpes Simplex.
