Exosomes Microneedling Pre-Treatment

Please review and follow our pre-treatment care plan. Failure to do so could result in cancellation of your treatment and forfeiture of your deposit. This service can not be performed on anyone who is pregnant or nursing.

- Microneedling cannot be done if you are pregnant, nursing, have active acne, cold sores or open lesions.
- If you are on a prescribed anti-coagulant, you will need to consult with your prescribing physician to see what they recommend before moving forward with microneedling.

Pre Treatment: 2 Weeks Before

- Refrain from using self tanners 2 weeks prior to your treatment.
- If you have had recent sun exposure be sure all redness or sunburns have completely healed before having microneedling.
- Do not wax or have a skin treatment like a chemical peel or IPL 2 weeks prior to your treatment .
- If you have a history of cold sores, please be sure to pre-treat with an anti-viral.

Pre Treatment: 1 Week Before

- Discontinue retinols and tretinoin 1 week prior to treatment.

Pre Treatment: 3-5 Days Before

- Before your microneedling treatment, it is advised to stop using exfoliating products, acids and bleaching creams/products.
- to reduce the risk of bleeding, you should discontinue all supplements including fish oils, aspirin and ibuprofen 3-5 days in advance.
